FROM BAND BOYSALL ARE HOMESICK AND LOSE-
SOME, BUT ANXIOUS TO GO.NOTHING CHEERS LIKE
LETTERS FROM HOMEAnother Intimate Account of the Life
of Maryville Militiamen in
Nevada Camp.(By I. B. Williams, Member of the
Fourth Regiment Band)

Camp Clark, June 26.—Rain, wind, more rain, more wind and then some visited the camp about 4 o'clock this morning. The hospital tent of the Second Regiment is the only one that went down. Some of our boys in the band were drenched for they slept out in the street.

Some of the floors in the tents above us were muddy and their bunks were half soaked. Our genial cook, Thos. McMullen, said he and his supply tent came near floating away but by making anchors of his "peg legs" he managed to save us from starvation.

The boys are grateful to Tom, and his assistant Claude Wilson, as they are doing their best to keep us in good cheer with the "delicacies of army rations." Tom is doing his best to be a "mother" to all of us and is making good at the job.

Our tents are brown duck, and round. The center pole is about seven feet long. This is placed on a tripod which allows the tent to be raised or lowered. Four guy ropes hold the center pole erect.

Every morning we unfasten the side stay ropes and wind the tent around the center pole, so as to allow the "floor" to dry off. Directly under the wall of the tent a ditch is dug to drain away the water and that precaution saved us a "good bath" this morning.

Each man is supplied with a "tick" which he fills with straw. Then a pancho is given to place around the filled tick. The pancho also serves as a rain coat. In its center is an opening for one's head and down each side is a row of buttons.

Our pillow is the knap sack filled with straw. It is a bag-like arrangement, something like an inverted pack saddle. In it we carry our eating utensils.

Stops to "Shoot" Picture.

Excuse me until I "shoot" a picture.

This morning has been a "vacation" and all the boys are cleaning up, writing letters, playing cards, baseball, etc., while our officers are completing details of enlistment and equipment.

This morning we were called out to give information as to former enlistments. This will have bearing on our pay checks, an interesting feature to many.

Those who have seen active service will receive more pay than a newly enlisted man. We are expecting a call most any time for our equipment and physical examination.

It is reported that this examination is not very strict because of the urgent need of men at the front. There are a few things which will give a soldier his discharge, chief of which is a broken down ankle arch or flat foot. All the men are inoculated with typhus serum.

Yesterday morning at 9 o'clock the Fourth Regiment was called out and assembled in front of the regimental headquarters and Chaplain Mallory of St. Joseph, conducted a brief service. He spoke about "Obedience."

He explained that he chose that word as a subject, not because he was to talk to soldiers, but because it was one of the finest essentials to success of everyone. The one who knows how to obey, knows how to command.

Sunday Like Circus Day.

Yesterday seemed like a circus day or something of street fair concern. One would have thought that all southwest Missouri had come to tell us good bye.

The Maryville bunch was a lone-some outfit for all our loved ones were far away and more than one expressed the wish to be back home. A rough estimate would say that 6,000 persons paraded Camp Clark's "Main street" and visited with "Missouri's future men of the trenches."

The crowd began to gather about 9:30 and it was loathe to leave by 8

p. m.

As far as I have been able to learn the Fourth Regiment is the only one that held a public service. All those who wanted to worship up town were given permission to do so.

The prediction is that we will not entrain for Mexico before Wednesday at the earliest.

It seems to me that we will be here at least until Friday. Of course the "big papers" have their correspondents here and probably get in closer contact with headquarters than I, but from observation etc., I don't believe it will be possible to get the men equipped to leave before Wednesday or Thursday. Most of the boys are impatient to be off.

We woke up the other morning and discovered Howard and Casey "among the missing." We were sorry to lose them but we know their hearts were not in this camp. As Oliver expressed it on the train coming down. "I sure have some reputation to make for myself down there playing a melophone."

Mr. Vert of Elmo showed up in camp this morning. He came down for the expressed purpose of getting a discharge for his son, Orville. The report is that his trip was useless.

Interesting People Are Met.

At mess today noon I met a former city Sunday editor of the Kansas City Star. He is a sergeant of the mounted scouts. I also made the acquaintance of Charles R. Clarke, of Boston, Mass.

He was a traveling salesman for the Grollier Society but when in St. Joseph on the 19th, he said a sudden notion came over him to join the army, and he enlisted in the Mounted Scouts.

He enlisted on the 21st which was his 21st birthday. He is 6 feet 4 1/2 inches tall and weighs 210 pounds. He is a good match for our own sweet George Crowson.

His parents are in Boston and his fiancée is in Seattle, Wash. He states that he was to have been married in July and that in case he is sent to Mexico he says he will try and get a furlough for the event.

I had considerable fun this morning in photoing our big men of the band and regimental staff. They were Clarke, Geo. Crowson, 6 ft. 3 in.; Earl Bricker, 6 ft. 2 in.; Jim McMahon, 6 ft. 1 1/2 in.; and John LaVelle, 6 ft. 1 1/2 inches.

A comparison of Clarke and our comrade, Henry Dressler of Bedford is amusing. "Dress," as we call him, is about 5 ft. 4 in. and weighs about 135 pounds.

Prof. Maundling was talking to some of us awhile ago and he said that he felt better today than he had for over (Continued on page 4.)

Mrs. Ed Godsey was busy all afternoon receiving cakes, cookies, fruit, candies and jelly that were sent to the Christian church to be packed for the soldier boys at Nevada.

At 3 o'clock a number of bundles had already been received with promises of many more before the afternoon ended.

"We expect to have a splendid offering," said Mrs. Godsey. "We received promises of forty women who will donate tables for the boxes. Here is one jar of jelly that was sent all the way from Wilcox to be put in the box."

SHOWS VERSATILITY MISSOURI TO LAREDO

COBURN PLAYERS GIVE PLEASING
COMEDY IN "RIVALS."

'RICHARD III' ALL TRAGIC

"Hamlet" Probably Most Popular of
Three Performances, Being
Combination of Both.

Versatility is the quality that distinguishes actors that are born from actors that are made. And when actors can go through the difficult scenes, interpret the tragic lines of Hamlet one night and then appear in a clever comedy such as "The Rivals," their position as born actors is assured.

The Coburn Players gave "The Rivals" yesterday afternoon in their matinee performance at the Normal auditorium in a way that Sheridan himself would have approved. This comedy is not so well known as the tragedy of the Prince of Denmark, but the ideas on which it is founded—those of insincerity and affectation—are as interesting as they were in the days when Sheridan and Fielding attempted their great crusade against formalism by means of play and novel.

"The Rivals" is indeed a play with a moral, but this moral is presented not by a long drawn out series of epigrams and sermons spoken in parrot-like manner by the actors, but by witty, lively sallies that preach their lesson while they convulse the audience with mirth.

Hickey Won Laughs Again.

John C. Hickey as Bob Acres was screamingly funny and showed the same ability to interpret the varying shades of humor in the character of the would-be duelist as he did in the more difficult role of Polonius.

Mrs. Coburn as Mrs. Malaprop handled with art and understanding the part of the affected, insincere dame who has trouble in using the right word in the right place. It was hard to believe that she was the sad, simple Ophelia of the night before, so complete was her transformation in dress, manner and speech.

Sir Anthony Absolute and his son, Captain Jack, who played the parts of Claudius and Laertes in "Hamlet," were amusing and clever. The entire play is a wholesome comedy which gave unusual pleasure to the audience.

The players went back to tragedy in their closing engagement when they gave "Richard III" before a large audience on the Normal Campus last night. This play, although not so familiar to the average reader of Shakespeare is nevertheless one of the most popular among the players of Shakespearean roles, because it has the double charm of historic interest and tragic circumstance.

Action Swift in Richard III. In "Richard III" the action was swift, every moment being crowded with events of the highest importance. Mr. Coburn as the hunchbacked monster who takes the lives of his brothers and nephews that he may rule England, fully sustained his reputation as a first class tragedian.

Mrs. Coburn as Lady Anne was interesting and appealing. John C. Hickey scored again as second murderer in the scene where George, Duke of Clarence, loses his life.

The tragic work of Reginald Goode in the role of the doomed George in the tower is worth special mention in any dramatic criticism of Richard III.

"Richard III" was not so pleasing as the other two plays given, in so far as pleasure alone is concerned. It is too heavy, too tragic. None of the humor of a Polonius or the grave digger lightens the swift beheading of princes and dukes. More opportunity is given, however, for a close following of the actors' arts than in one when the mind is diverted by humor.

The players left this morning for Kirksville, where they will give a series of performances at the Normal school there.

JOY HAS JOY IN BOAT

AIR PROPELLED BY ENGINE FROM
FORD CAR.Ravenwood Man Has New Sport in
Platte River, Which Promises
Fine Summer.

Colonel Joy of Ravenwood is now a member of the hydro-plane corps—no, not the hydro-plane kind—but he has rigged up a boat on the Platte river which is propelled by air power. It was recently given its first trial and did excellently, except for a broken rudder.

The engine, steering wheel, gear transmission and other essentials of the motive power of a Ford were removed from Mr. Joy's car and installed in the boat. The propeller, with 5-foot blades, is installed upon a framework at the rear of the boat—beg pardon—the stern.

A chain gearing runs up from the differential part of the transmission to the propeller. A good speed is obtained and the boat will run on a "heavy dew," so the boys of Ravenwood are expecting some sport on the Platte this summer.

'UNCLE JOE' ASKS
FOR PLAIN WARFORMER SPEAKER SAYS STATUS

CARRANZA YIELDINGGreat Battle Reported Going on This
Afternoon Between Pershing
and Carrizias.

BULLETIN.

El Paso, June 28.—Unconfirmed reports reached here this afternoon that Gen. Pershing's forces were engaged in a battle of considerable magnitude somewhere along the American line of communication. There was no confirmation to this report, however, but it was noticed that censorship of sources of information had suddenly become strict.

Special to The Democrat-Forum.

Washington, June 28.—An immediate declaration that a state of war exists between the United States and Mexico was demanded in an impassioned speech delivered in the house of representatives today by Uncle Joe Cannon. He declared "the status in Mexico should be recognized at once."

Slight Hope For Peace.

A hint that Carranza might at the eleventh hour reserve his decision of not releasing the Americans came today from administration sources and was received by Postmaster General Burleson but he refused to intimate where he received it from.

Information was simultaneously received that the Latin-American diplomats here renewed pressure on Carranza to have him meet the wishes of the United States to prevent war indicated pressure is having some effect and there was a declaration by a Mexican official that "there might be a delay" in sending a reply to the ultimatum.

Bitter Anti-American Feeling.

Laredo, Tex., June 28.—Copies of Mexican City newspapers received today contain bitter anti-American editorials and advise Mexicans to kill the stock of Americans in their country.

Another Engagement Rumored.

San Antonio, June 28.—Persistent rumors of an engagement between the Carranzistas and Americans, in which the Mexicans suffered heavy losses, came today from the border. The reports lack any official confirmation.

50,000 Well Equipped Mexicans.

El Paso, June 27.—Refugees from the interior of Mexico bring stories of 50,000 Mexicans in an army which is concentrated at Villa Ahumada to resist the American advance. The great portion of them are said to be well equipped cavalry.

It was officially denied at Fort Bliss today that thirty-four wounded Mexicans had been taken to the American hospital at the Colonia Dublan base. The reports came from a Mexican source. It gave rise to the belief that another engagement had been fought with Pershing's troops.

Hot On Trail of Bandits.

Columbus, June 28.—Three detachments of the Twelfth cavalry are hot on the trail of the twenty-five Mexican bandits who murdered William Parker and his wife at their ranch this morning southeast of Hachita, N. M. According to advices, the cavalry are under strict orders to kill or capture the murderers.

Killed Six Murderers.

Columbus, June 28.—Six of twenty-five Mexicans who murdered Parker and wife were run down an killed according to dispatches received by relatives of Parker. The bandits were overtaken by a posse in automobiles (Continued on page 3.)

"Remember that the Yellowstone is yours"—such is the conclusion of the splendid booklet which the Department of the Interior has just printed about our Greatest National Park.

"Distinctive Characteristics" of the Park are listed in this Government book as follows: "More geysers than in all the rest of the world together—boiling springs—mud volcanoes—petrified forests—Grand Canyon of the Yellowstone, remarkable for gorgeous coloring—large lakes—many large streams and waterfalls—vast wilderness inhabited by deer, elk, bison, moose, antelope, bear, mountain sheep, beaver, etc., constituting greatest wild bird and animal preserve in the world—altitude 6,000 to 11,000 feet—exceptional trout fishing."

Two-thirds of all who visited the Yellowstone during 1915 went via Union Pacific System because by this route Colorado and Salt Lake City may be seen on the way without additional fare, also the trip to Yellowstone is made conveniently on the way to California or the Pacific North Coast.

Let us send you free, the reprint which the Department of the Interior has permitted us to make of the booklet shown in the illustration above. The Park is now open—why not go?

THERE is more satisfaction in practicing Ivory Soap economy than in indulging toilet soap extravagance. Ivory Soap agrees with the skin better even than many "complexion" soaps because it is as mild and pure as soap can be.

IT FLOATS

Just because it tastes like Mother's! That's why ZEPHYR FLOUR bread is the favorite of most men.

All that smacking deliciousness of old fashioned bread can be obtained from the full-flavored richness of ZEPHYR FLOUR. Not a bit of the tangy sweetness of its sun-ripened wheat is lost in the milling of ZEPHYR—the chemist sees to that.

Searching tests made hourly by chemist and baker insure uniformity which guarantees identical baking results from every sack. Using ZEPHYR means good bread at every baking. We selected

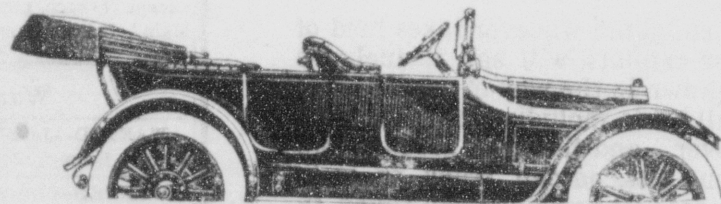

ZEPHYR FLOUR

because of its finer flavor and unflinching satisfaction. You'll choose it, too, for the same reason, after you have tried it just once.

Will N. Wray, one of the largest shippers from the neighborhood of Gulfport, Mo., was in again today with a shipment of hogs. Mr. Wray was represented on the local market five days last week and as a rule averages from three to four loads of stock each week.

"Wheat and oats have begun to turn in my neighborhood and within a week or ten days will be ready to cut," said Mr. Wray. "The acreage of oats is quite a bit larger than usual and the acreage of wheat is up to the average. The quality of the grain will be good and the yield large."

Edward Vulgamott, a prosperous farmer and feeder of Maryville, Mo., was in today with a car load of hogs of his own raising. Mr. Vulgamott is a regular patron to the local market and ships several loads of stock each season of his own raising.

"Corn is a little backward in my neighborhood this summer," said Mr. Vulgamott. However, late corn is looking good and if the season is long enough the crop will be pretty good. Early planted corn was damaged considerably by the bad weather and a good bit of it was replanted."—St. Joseph Daily Stock Yards Journal.

Porch Comforts

THE time of year has arrived when you will spend most of your leisure hours on your porch. You want to make the porch as convenient and comfortable as possible for this summer habitation and we are in a position to supply your wants.

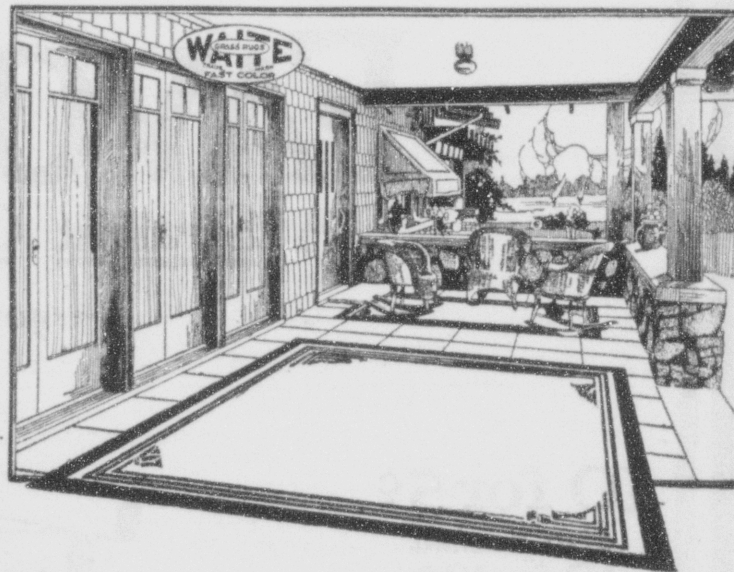

Vudor Porch Shades

Practically every porch needs shading from the sun during some part of the day. Many porches need it during most of the day. Our Vudor Porch Shades make the most sun-beaten porch as shady as though sheltered by spreading tree tops. They admit the breeze at the same time, and those within can see out; thus transforming an otherwise exposed, useless porch into a cool, shady, airy outdoor room.

We have a variety of sizes in these green porch shades, so that we can equip any porch.

Habits are catching. We are watched closely by our neighbors and friends, and habits that seem to pay are imitated.

2 MORE LETTERS FROM BAND BOYS

(Continued from Page 1)

We came near to having to bring him in on a stretcher the first two or three marches we made but now he likes the "hikes" as well as any of us. All the boys are doing nicely and feeling well.

They also say that if anyone has any surplus "cats" that we can take care of it here without any trouble. Anything from a cracker to an Angel food cake will be looked after to the smallest detail. Uncle Sam hasn't put the "censorship" on anything of that nature up to yet.

I honestly believe we will be here all week. Our order for band instruments goes in tomorrow morning. Will give you new instrumentation as soon as it is given out. There will be several new men in—transfers. We expect our physical examination in a couple of days and then we will know our fate, whether we go or stay.

Lazy Man's Days Now.

Camp Clark, Nevada, June 27.—Today is another lazy man's day. Our chief cook, Thos. McMullen, came down this afternoon to make us a visit and while here showed us his respect by going to sleep. His repose was soon disturbed. He is known more popularly here as "Mr. Round Man."

I have had a few moments to look and figure out some "get-rich-quick" schemes. One is a barber shop but the better one is what we call in army life, the "canteen."

It is nothing but a supply store with such merchandise as cigars and tobacco, pop, ice cream, etc. I tried to get an estimate Sunday evening on the amount of pop sold. The keeper said he had no idea but from an observation of the cases stacked outside there were about 75 empty ones. He said he could sell 50 more had he had them. Ice cream cones are another big item as well as boneless ham.

Now Members of U. S. Army.

The band was mustered into the United States army this morning and we are waiting for orders to go over to the hospital examination. Several of us are expecting to get our "walking papers" back home. It is amusing to see and hear the boys discuss their frailties.

The "flat-foot" is the dreaded obstacle to those who want to go and in such cases alibies are being framed. One needs a photograph to catch all the humor expressed. Those of us who want to go and feel almost a certainty of being turned back dread the return back home more than they do the Greaser's bullet.

We have the best prospect of having the best band in the entire brigade and there are few exceptions, if any, of us who want to come back.

Expect to go to Laredo.

We were told this morning that we

would leave here for Laredo, probably by Thursday. The mustering in, examinations and typhus-inoculation is expected to be completed by tomorrow. Some recruits came in this morning, about 80.

Every day brings new recruits in to camp. As they pass down "main" street the "old-timers" collect along the line of march and give them three cheers. Little do they dream what is waiting for them.

The report was just passed down the street that we would not be examined until we reached our border camp. That may be taken to mean that the time of departure is closer than we think.

The most discouraging thing about this life is in not receiving some word from home. If it was just for the ordinary week of camp they say they wouldn't mind not getting a letter or paper, but when the thing is serious like it is that when the President makes his fingers wiggle that word "war" the only soothing syrup for a "soldier boy" is a letter from mother and sweetheart.

Township Exhibits

The County court has set aside \$100.00 for township exhibits. A little explanation probably would be well so the parties in each township will not have the advantage over one another. The prizes run as follows, and money divided—1st—\$50.00, 2nd—\$25.00, 3rd—\$15.00 and 4th \$10.00.

Last year the money went to the township. This year the fair association will add to the Floral Hall exhibits so that the township exhibits will not conflict with the premiums of the association and all money will be paid to the parties getting up the exhibits instead of the township. In this way each party will get pay for his work and also boost the townships in our county, and then these exhibits will be taken up at the State Fair exhibit.

Now to enlighten whoever takes hold of making these exhibits, will say it includes every item grown in the way of grains and produce of all kinds, including timothy, alfalfa and clover, and the more produce and grain each one gets, garden truck as well, the more points will be gained and taken in consideration when the judges come to decide them. Each township can appoint its own committee and work in harmony with each other, and by commencing now to get ready to take care of the grain, produce, garden truck, fruit of all kinds, etc., it will give ample time to have these exhibits in readiness for the coming Fair, Sept. 4 to 9 inclusive. This will be sufficient notice to all that are interested, and that will take a part in gathering up for the township exhibits, as well as for the Fair, also State Fair. The Maryville Nodaway County Fair and Agricultural Association.—A. O. MASON, Pres. and Gen. Mgr. Jon. L. Tilson, Sec'y
